Much Noise--Little Change in the Draft

Egg Production At High Peak

Flooded Markets Causing Much Confusion in the Egg Production Problem

Randall county farmers are again producing eggs which must go on a surplus market with the result that egg dealers are having a hard time maintaining a price which will equal cost of production to the egg producers.

Production is at an all-time high peak. It is 79% above the 10 year average.

Egg drying establishments are unable to use fresh eggs now because they have stored eggs on hand.

Much of cold storage space normally available to use for eggs has been requisitioned by the Army for other purposes.

There is a shortage of egg cases and dealers are reluctant to release cases to be used for cold storage because they can't get them replaced.

High priced feed and low priced eggs has caused a great many producers to cut down on their orders for chicks and pullets for fall layers.

We may find the whole country short on pullets this fall. There may be a shortage of fresh eggs this fall. If so those who go ahead and plan normal production next winter will profit by so doing. In the meantime, what can be done about the surplus egg situation.

Poultry specialist and the Food and Nutrition Specialists have two thingss to suggest.

1. Increased use of eggs by everyone.
2. Home storage of eggs by both producers and consumers.

If low priced eggs were stored now and saved for consumption in the fall when eggs will be scarce and high it would help the producers by taking the surplus off the market and would save on the home food budget next fall.

Directions for preserving eggs for home use are given in a circular which may be had at the County Agent's office or the Home Demonstration Agent's office.

Postpone Meeting of County-City Planning Board

The meeting of the new County-City Planning Board was postponed until next Monday night.

The group of representatives was scheduled to meet Monday night to complete its organization. Dr. S. H. Condron, temporary chairman of the first meeting, was added to the city of Canyon representatives at the meeting of the City Commission before his election to this body.

College Orchestra To Feature Soloists

Wednesday, April 19, at 8:30 in the college auditorium, the College Orchestra will present its annual concert. Conductor Robert Louis Barron has prepared a varied program consisting of several orchestra selections and two solo numbers.

Soloists are Earline Lust, piano major from Dimmitt, and Beth McCaslin of Canyon. The orchestra will accompany Miss Lust in playing Beethoven's C Minor Piano Concerto (1st movement), and Miss McCaslin in a Recitative and Air for soprano by Handel. M. J. Newman, college band director, wrote the orchestration for Miss McCaslin.

For the more classical diet, the orchestra will play Weber's Overture to "Der Freischutz," the Symphony No. 100 of Haydn, Bach's "Little" Fugue in G Minor, and the March from Gounod's opera, "The Queen of Sheba." Contemporary compositions are Suite in E-flat by Gustav Holst, and Lord Peter's Stable Boy, by Percy Grainger.

Members of the Amarillo Philharmonic will assist the orchestra.

Everyone is cordially invited to attend. Admission is free.

Lt. Joe Gill Is Canyon's Hero

Capt. Vincent Lockhart Writes of Citation Given Gill For His Bravery

"If Canyon has a hero, it's Joe Gill."

Thus writes Captain Vincent Lockhart from Italy.

Capt. Lockhart has just read the Canyon News of Feb. 10 with the story that Joe Gill had been appointed second lieutenant because of his acts of heroism in the Italian campaign.

The story of Lt. Gill's bravery was printed in the News when it was released by the War Department.

Capt. Lockhart is high in his praise of Lt. Gill, who is now commanding officer of Co. F. This is the company which was commanded by the late Capt. W. E. Lockhart. When the soldiers left Canyon Vincent was a second lieutenant, and Gill was a sergeant.

Navy Department Seeks Civilian Help

Miss Holly Maguire and Miss Velora Ward are at the U. S. Employment Office, 323 W. 7th, Amarillo, through Saturday, to interview girls from 17½ up, no limit on age, for stenographic, typist or clerk positions as civilians with the Navy department in Washington.

All girls and women who make application must not now be employed in essential war work.

Transportation to Washington and housing arrangements will be made by the Navy Department.

Capt. Harold G. (Red) Watts is back from North Africa and is hospitalized in Lubbock with malaria fever.

Fewer Cars Are Registered Here

Slight Decline Shown In Amount of Money Collected For Automobile Tags

According to a tabulation just completed by Tax Collector M. E. Cantrell, Randall county has slightly fewer cars and trucks in operation this year than during 1943.

A total of 2532 receipts were issued on the various type of vehicles this year.

Total collections were $37,748.37. This is $2,300 less than the amount collected last year. However, many more vehicles are expected to be registered during the coming months of the year.

No Inspection of Tires for Holders 'A' Gasoline Cards

Compulsory periodic inspections of tires on passenger cars will be discontinued after April 20. Motorists must continue to have inspected any tire they wish to replace.

Inspection of truck tires will continue as before.

It is important that motorists retain their tire inspection records because OPA will continue the use of them in issuing gasoline rations.

Discontinuance of these inspections does not mean that the tire picture has become any brighter. It simply means that the inspection program has fulfilled its primary objective—to make motorists conscious of the extreme need for tire conservation and care.

Hinders Infant Is Buried Sunday

Mary Fern Hinders, infant daughter of Mr. and Mrs. Louis B. Hinders, died Saturday at an Amarillo hospital.

A short funeral service was held Sunday afternoon at 3 o'clock at the Griggs - Thompson Funeral Home, conducted by Rev. C. C. Armstrong. Interment was in Dreamland Cemetery.

Mrs. Hinders is reported doing well at the hospital.

In addition to the parents, three brothers and one sister survive: Garland Louis, Raymond, Merle and Ann Laverne.

Wakefield Walker To Graduate From NROI School Soon

Ensign Wakefield Beard Walker, USNA, 25, will graduate from the Naval Reserve Officers Indoctrination School at Tucson, Ariz., with the 17th battalion of this "Battleship of the Desert," April 12.

An instructor at Lincoln Air Base, Lincoln, Nebr., prior to entering the naval service, Walker attended West Texas State College receiving his B. S. Degree in 1940.

Ensign Walker is the son of Mr. and Mrs. George D. Walker of Happy and is the husband of the former Neva Robbins of Canyon.

Clarence Burger Made High Record

CLARENCE M. BURGER

While a student in West Texas State College, majoring in Business Administration, Clarence M. Burger, became interested in government, decided the best way to become a good administrator is to learn from the bottom up. So he took a Civil Service examination to see what it was like, passed, went to the War Department as assistant messenger. Next he took a typing test, and because of his grade of 96.17 the Treasury requested him, and he was transferred there as junior clerk. He is now assistant clerk, Returns Division, Bureau of Narcotics, and has been given an award for meritorious service to the department.

Never one to choose the easiest way, Mr. Burger has received most of his education while holding down an eight-hour job. This was true while he was in high school, and by the time he was in college he had a wife and two baby daughters to care for also. He has bought a home in Washington and had definitely decided upon government as a career, but in a few days he will be on his way to Army's basic training.

Mrs. Burgess is a daughter of Mrs. O. B. Vaughan, Canyon.

Harry Brown Now Midshipman in N. Y.

Harry A. Brown, Jr., has passed to midshipman rating and is assigned to Columbia University, New York City.

Midshipman Brown is a graduate of Canyon High School and won the American Legion Scholarship, given each year to the child of a Legionnaire who has the highest average for the four years of high school. He is the son of Dr. and Mrs. Harry A. Brown.

Muddle During Week Is Cleared

Men are Upset With the Changing Regulations; Little Changes Made

The draft situation was badly bungled this week which kept local Selective Boards and men affected by immediate draft up in the air.

Three different bulletins and telegrams were issued between Sunday and yesterday.

Regulations were changed so rapidly that no one could keep up with the regulations.

According to the latest instruction received yesterday morning, all men shall continue to report for induction and for medical examinations just as the regulations of last week prescribed.

The only men over 26 years of age who are now subject to deferment are: Those engaged in essential agriculture; engaged in war production; or in war supporting activities. All other men above 26 years of age will continue to be given physical examinations and will be inducted when their numbers are reached.

The War Department is after boys 18 to 25 years of age. Few in this age bracket will escape military service if the War Department has its way—according to present indications. Local boards have been advised to recheck the deferments of all men of this age bracket. Agriculture units are wiped out as a claim for deferment. Local boards are advised to co-operate with USDA War Boards.

The Randall County Selective Board has submitted a list to the War Board of all men 18 to 25 who are on the farms. The case of each man will be carefully checked, and it is predicted that many in this group will be called into service by these new regulations.

Ten men will leave Monday afternoon for Lubbock to be inducted in the navy. They are: Wilson Lavert Avent, Jr., Robert Lawrence Black, Joe Marlin Winstead, Jack Taylor, Ervin Wayne Porter, Ralph Cabe, I. B. Dodson, Lawrence Mernard Beckman, Clarence Edwin Lundry, Travis McCuistion.

Thirteen men will leave Monday Morning For Ft. Sill to be inducted into the army. These are: Robert Parsons, Delmer Marlin Jonhson, Travis Jack Barnard, Robert Clay Taylor, Millard Dea Anderson, William Eldon McCarter, Odell Gus Miller, Willie Buford Emler, G. W. Morrison, Andrew Harvey Lindemann, Loyd Lee Jobe, Wallace Henry Huff, Edgar Pascall Castleberry.

Notices have been sent to 54 men to go to Lubbock on April 21 to take their physical examinations. A large number of this group are now living in other towns and are being transferred. This will practically wipe out the list of available men in Randall county. Also called at this time are all 2-A and 2-B men, about a dozen in number.

The May call is for 38 men. These men will leave on the 22nd. It is likely that a number of farm boys will be included in this call.

Women Urged to Carefully Guard Ration Books

Housewives are advised by D. F. Sanders, chairman of the Randall County War Price and Rationing Board, to take good care of War Ration Book IV and to keep Book III in a safe place. All buying of rationed foods is now done from Book IV and that book will be in use about three times as long as earlier food books.

Applications are frequently received from people who want replacements for ration books that have been lost or damaged. Since no more ration books are to be printed soon, replacement may become increasingly difficult.

Book III mus t be kept, even though it is not used for food buying, since it contains airplane stamp one now good for shoes and will probably continue to be used for shoe rationing. After stamp No. 18 in Book I expires April 30, that book will be withdrawn from use.

Marshall Rockwell spent a 10-day leave from the navy with his wife and his parents, Mr. and Mrs. M. H. Rockwell. He hopes to get another leave to help with harvest.

Pfc. Carl Small and his wife are home on a short furlough. They have been in Illinois. Mr. Small is being transferred to the east and Mrs. Small will remain in Canyon.

Mr. and Mrs. Sidney Burgess and daughter, Linda, from Amarillo Tech Village spent Sunday in the parental John Burgess home.

Willkie Is Out

The News predicted weeks ago that Wendell Willkie was on his way out. The Old Guard of the Republicans decreed that Willkie could not be the Republican nominee, and the movement was quietly started to undermine Mr. Willkie as a candidate. This was not hard to do. The more the Old Guard undermined him, the louder and longer Willkie talked. He challenged his opponents to do their worst—and they accepted the challenge.

Herbert Hoover had more to do with Willkie's downfall than any other Republican. Hoover started out three years ago to see to it that Willkie would not receive the nomination in 1944. He has accomplished his purpose. Hoover is for Dewey because Dewey was a staunch friend of Hoover. The two seem to see eye for eye, which makes the situation pretty bad. Hoover is a strict isolationist. No one knows how Dewey stands on international problems, and he will probably keep mum until after he is selected the nominee of the party. It will then be too late for the liberal element of the Republicans to run out another candidate.

Under normal conditions the defeat of Willkie would mean the election of Roosevelt by another sweeping majority. However, the Republicans feel differently about the situation. They figure that the number of votes cast this year will be one of the smallest in recent years. In 1940 50 million ballots were cast for president. Today there are about 10 million men and women in the armed services. Only a few of these will take time to vote. Since last election there has been a great shift of migratory laborers. Only a small percentage of these will take time to register in their new homes, and therefore several million will not get a vote. Normally they would be for Roosevelt.

The Republicans figure that if the vote falls to 40 millions in November, Roosevelt will be defeated; if the vote stands at 45 million the President has a slim chance of re-election; but if 50 million or more votes are cast he will be re-elected.

They are guessing at this small vote, and therefore want to put out a candidate who has no record to defend. They count on the popularity of Governor Dewey in carrying New York, which is a real handicap when the electoral ballots are considered.

Willkie has the choice of either supporting the President, whom he admires; or seeking a liberal platform for the Republican party. The isolationists will keep their eye on Willkie, because he might disrupt their plans too much if they attempt to curb him beyond reason. Willkie might influence a million or more voters. The Republicans are sure getting hungry, and want to get back in power so badly that the leaders will play their cards very carefully this time.

Whatever is wrong down at A. & M. College should be promptly corrected so as not to cripple that great institution. The deposed President blames the Board of Regents; the Regents claim the college has run off and left the President. Being head of a great institution is a tough job; likewise being a regent, responsible for the future development of the college, is a tough job. No doubt the legislature will have a complete airing of the situation. In the meanwhile, those of us who know nothing of the situation should read and listen rather than jump to hasty conclusions.

What about this food business? Is the supply running low, or is there an abundant supply? Again, we have two different thought on the problem. The actual producers and those who handle foods are alarmed. With the shortage of labor and machinery, farmers are predicting a reduction in the food supply. On the other hand we are assured by Washington bureaucrats that the visible supply is ample; therefore, the farms must give up to the army all men under 26 years of age. It's a pretty good guess that the army will win in the demand for more men. Since there are no industrial plants in Randall county to absorb young men, we shall not be surprised to see every able-bodied young man in the county inducted into the armed forces this summer. But what about the food supply? Of course Randall county is a very small unit when it comes to supplying the nation with food; but when all of the farms of the nation have to give up their able-bodied young men, who is going to raise the food needed for armed forces and the civilians. Naturally the armed forces will get first chance at the food supply, and civilians may as well prepare themselves to eat less, and to limit their appetites. We don't blame the army for wanting young men. But we do say that it is a silly situation when young men are taken away from food production, while industry continues to hold on to its young men, working them only 40 hours per week, and the armed services waste their manpower by still continuing vast armies of recruiting parties in the key towns of the nation, and holding able-bodied young men in clerical positions.

So far as Randall county is concerned, the Negro vote will make little difference. There are only 14 adult negro men living in South Amarillo and 12 of them are in the army. It is doubtful if any of them paid a poll tax. The fact that the Supreme Court declared that the Negroes have a right to vote in white primaries shows that this highest court in the land is going right down the line with New Deal policies. The Roosevelts, especially Eleanor, are so-called social reformers, regardless of consequences. The President figures that the solid South will stand solidly for him, regardless of what his party does to jeopardize the goodwill which the South holds for the Democratic party. Feeling is running high against this Supreme Court decision in those counties where the Negroes outnumber the Whites. The unjust determination of the New Dealers to force through Congress the abolition of poll tax payments is not helping the situation one bit.

All Americans know what happened to France when selfish labor leaders took charge of that nation, introducing the sit-down strike, and encouraging graft and greed. A visitor to Old Mexico tells that the same condition exists in that unfortunate nation today. Labor racketeers are on the rampage in America. Their plea is that capitol profiteered on the nation during World War I, and many are doing the same today. No one denies the shame of the first war, or approves any profiteering in this war. But two wrongs fail to make a right. With the administration giving labor leaders everything they demand, what will be the ultimate result in this nation? Are we intelligent enough to avoid the pitfall into which France fell? Every loyal American citizen has something serious to consider. Are we going to have a government of the people, by the people, for ALL the people, or merely for those who organize and demand that they get theirs?

The President claims that the cost of living is gradually going down. The government economists do this figuring for him. On the other hand, economists outside of government offices challenge his statement. The government does not take into consideration mounting taxes and the poor quality of consumer goods which are being manufactured. Figuring on the cost of living is a very elusive game. You may prove just what you want to prove by starting from different angles and using different methods. Those who have fixed incomes, which have not risen since the war started, know that their necessities of life have increased. They may have a little more money in the bank than they used to have, but this is because there are so many things they need which cannot be procured.

Just when and where invasion of Europe will start is a military secret. But from every indicatio when it does start, all small nations of Europe will be in on the greatest battle of the world's history. The United Nations are doing big advertising on the proposed invasion. Hitler is pepping up his armed forces so as to be ready to meet the invaders at any point General Eisenhower decides to start the big push. It is not going to be the case of too little, too late when this battle does start, as the Allies will throw everything they have at the Germans. To fail in this attempt would prolong the war many months, and possibly years.

NEED FOR MANPOWER CONTINUES

Although the United States Army has reached its planned peak strength of 7,700,000 persons, it will need 75,000 to 100,000 men monthly to maintain that strengeh, according to the War Department, and the Navy Department said it would need 400,000 additional personnel by September 1 to get the Navy, Marine Corps and Coast Guard up to peak strength of 3,500,000. Meanwhile, the National Selective Service System has abandoned the War Unit Plan for determining agricultural deferments. Provisions concerning a registrant's agricultural occupation or endeavor that will govern are whether he is necessary, whether he is regularly engaged in it, whether that occupation or endeavor is necessary to the war effort and whether a replacement can be obtained.

JOBS FOR DISCHARGED VETERANS

For men discharged from any of the United States Armed Services, a summary of job opportunities in 114 major industrial centers will be placed in nearly every local U. S. Employment Service office, the War Manpower Commission announces. These job summaries give information of types of jobs, scheduled hours of work, hourly wage rates, availability of housing, cost of living, and the adequacy of community facilities such as schools hospitals, and transportation. The summary will be revised bi-monthly and will indicate the expected labor demand six months in advance.

SPECIAL GASOLINE RATIONS

Full-time paid employees of farm organizations operating to increase food production are eligible for preferred mileage under gasoline rationing, the OPA announced. Their organizations must be chartered by the United States, or by a State, and have a membership of at least 100 persons, the majority of whom are farmers. Also, qualified victory gardeners again will be granted special gasoline rations for up to 300 miles of travel to and from their plots this summer.

TEST MOTOR FUEL "DOPES"

Shortage of gasoline, says the Department of Commerce, has led motorists to use fuel "dopes," reputed to increase mileage and otherwise improve the automobile operation. The Bureau of Standards has tested hundreds of them without finding beneficial results in any case.

MERCHANT MARINE CALLS RADIOMEN

At least 500 first and second class commercial radio telegraphers, licensed by the Federal Communications Commission, are needed for Merchant Marine service within the next three months, the War Shipping Administration announces. Qualified men should telegraph collect, at once to U. S. Merchant Marine, Washington, D. C. Registrants will be placed on active pay status as soon as accepted and must attend a Navy school on wartime procedure for one to three weeks.

MARITIME COMMISSION REPORTS

Maritime Commission shipyards delivered 410 ships of 4,115,951 deadweight tons during the first quarter of 1944, the Commission announced. Liberty ships continued to dominate production, but there was a growing tonnage of military and other fast type vessels, including the new victory ship. In March, 152 merchant ships were built.

ROUND-UP

The War Food Administration says—the public should consume more eggs, at least through mid-May, to take care of an anticipated record production amounting to at least 350 eggs for each civilian during 1944. . . . About 70 per cent of the 1944-45 supply of dehydrated vegetables will be allocated to U. S. war uses, 23 per cent Great Britain and Russia, 5 per cent to U. S. civilians, 1 per cent to liberated areas and 1 per cent for other exports.

WPB says that—a "farm" is a property used primarily for the raising of crops, livestock, dairy products, poultry, etc., for market, and on such property $1,000 or less may be spent for construction, including the farm house, without approval. . . . Some electric alarm clocks and 1,200,000 war alarm clocks (many for military needs) will be produced and distributed during the second quarter of 1944. . . . A cut of 10 per cent in civilian leather for shoe repairs and 13 per cent for new shoes has been made for 1944. . . . Production of cutlery made of stainless steel has been permitted and products should be available at retail counters in three or four months.

OPA says that—consumers buying meat directly from farmers may continue to use Red stamps, A8 through M8, plus the next 18 stamps in book four. . . . The over-all 1944 retail prices of early onions will be somewhat above those of 1943, but below the current "going" prices. . . .The retail ceiling price for book matches with non-commercial designs on the cover is 14 cents per box of 50 at independent stores, and 13 cents, or two boxes for 25 cents, at chain stores and super-markets. . . . Retail prices of fresh dressed halibut were recently reduced for consumers in Eastern states, and for the first time in almost a year adequate supplies of this fish will be available for consumers living west of the Rocky Mountains. . . . Prices for used automotive parts usable without rebuilding must not exceed 75 per cent of list price for the parts when new, and for parts which must be rebuilt before being usable, must not exceed 30 per cent of the original list price.

Questions and Answers

Is vitamin A in the yellow coloring which is to be added to margarine?

No, vitamin A is in the margarine itself. Usually 9000 U. S. P. units of the vitamin are added per pound. However, most people like a yellow colored spread so coloring is included in each package. Less often vitamin D is added.

What is the difference in the food value of pork, calf, lamb and beef livers?

Each liver gives practically the same number of calories. They are also much alike in protein content, calcium and phosphorus. However, pork has more iron. It is three to five times as rich in the mineral as the others. Pork is also richer in thiamine or vitamin B1, but B2 or ribflavin, and niacin another B vitamin, are about the same in each liver. The livers differ greatly in vitamin A content. Calf liver has about two times as much as beef and lamb, and about three times as much as pork liver.

A Tennessee hillbilly had been calling on his girl for almost a year, when pappy finally cornered him one night and asked:

"You been seeing Nelly for nigh onto a year. What are our intentions—honorable or dishonorable?"

The hillbilly's eyes sparkled; "You mean I got a choice?"

Dad: Son, I never knew what it was to kiss a girl until I courted your mother. I wonder if you will be able to say the same to your children?

Son: I think so, dad, but not with such a straight face as yours.

Attendance To Museum Regular

Ex-Students Depositing Souvenirs of War In The Museum

Despite the continued and increased scarcity of gasoline for travel, the attendance at the Panhandle-Plains Museum is still approximately that of last year. During 1942 the attendance was 24,600; during 1943, there were 24,918 registered visitors. During the first three months of 1944 a total of 5,089 have registered.

One division of the museum that is growing quite rapidly at present is that of materials from the present global war. Ex-students are bringing back materials collected from the far flung battlefields and are placing them in the museum so that the people back home can see actual evidence of their experiences.

Three ex-students who have recently deposited their souvenirs with the museum are Joe Davidson, Garland Turner, and Donald Butler.

Joe Davidson has placed a nail file taken from a German prisoner and a cigarette lighter likewise secured from a prisoner of war. The cigarette lighter was picked up in France by the German who later carried it to the Russian Front and then to North Africa. From North Africa the prisoner fled to Sicily where he was captured.

Garland Turner has deposited a Japanese helmet, a light aluminum canteen, and a 25-calibre rifle taken from dead Japanese soldiers during his campaign in the Guadalcanal sphere. All of these items are current government issue for Japanese soldiers.

Dr. Lee L. Johnson has deposited a collection of propaganda leaflets and a picture used for the same purpose. These leaflets in pidkin English point out to the natives of the Pacific Southwest the comparative conditions under which the natives exist during Japanese occupation and during Allied occupation. Dr. Johnson also deposited a photograph of Captain Butler's crew. Captain Butler, a native of Claude, Texas, presented Dr. Johnson with the leaflets and the pictures during his recent visit to the campus.

Another recent contribution to the museum is a complete set of the Britannica Encyclopedia (1890 edition) presented by Mr. Guy Witt, Secretary of the Chamber of Commerce, Plainview, Texas.

From Jack Frye, and secured through the efforts of Floyd Studer, Amarillo, Texas, is a collection of fourteen colored photographs secured by the T. W. A. These photographs are of unusual beauty, having been prepared by the airline company for the purpose of advertising scenic spots along their airlane.

freedom of person.
These principles form the bright constellation
which has gone before us
and guided our steps."

— INAUGURAL ADDRESS.

A passenger on the famous "slow train through Arkansaw" said to the conductor, "You ought to put the-catcher on the back end of the train because there is absolutely no chance that we will overtake a cow but a cow might overtake us and wander in."

Around over Texas:

In the southeast corner of Montague County are the ruins of a cabin, near a stream in a heavily-wooded area, which was a hideout for Sam Bass, the famous outlaw, according to Joe Benton of Nocona, who has made a life study of the history of that section.

Dr. N. W. Crain, who has been practicing medicine since 1886, recalls that, when he went to Spanish Fort (on Red River) in 1880 that there were no ruins remaining of the old fort (of Spanish, French and Indian days) but that there were large pits, which apparently had been dug to enable some 20 men to lie in them, their feet in the center and facing outward in a circle, making it possible to oppose enemies attacking from any or all directions.

Candidates are poverbially optimistic. It is related that an aspirant for office approached a voter who grew red in the face and bellowed:

"I think you are a contemptible reprobate and I wouldn't vote for you if you were the only man in the race; do I make myself clear?"

The candidate replied, "You surely do—and I'll put you on my doubtful list."

An English reviewer many years ago wrote a rhymed review of a book that had mainly been plagiarized from another book:

"The part you stole I liked the best;
Take courage, man, and steal the rest."

Second girl: "Good gracious, why?"

First Girl: "Father was one of the applicants!"

WHAT D'YA MEAN . . .

"Free Enterprise"?

FREEDOM OF ENTERPRISE, for example, has helped the electric companies under business management to most every war demand for electric power—stepping production steadily up and holding prices firmly down. The same freedom of enterprise that built the electric companies, built America! There is no substitute for it!

"Free Enterprise" is just a name for the way America works. It's the simple principle that human beings like to get on in the world. That when a man sets out to be a doctor or a shoe salesman or an electrical engineer—that's what he wants to be. And he can be!

That when a farmer plows his field and plants his seed, he has a right to a fair return. A right to buy more land—and extend his fences. That when a business man founds a business, he's building a future—and nobody can take that future from him. That when a man works hard and saves his dollars, those dollars are his. He can spend them if he likes. Or he can invest his money, secure in the knowledge it's working for him.

Call that any name you like. Call it Free Enterprise or Democracy or Opportunity. Whatever you call it, it's American-bred-in-the-bone.

Without it, nobody's going to plan any further than tomorrow. Without it, there's no incentive to invest, discover or develop. Without it—and don't let anyone tell you otherwise—this country would lose its high place among the nations of the world.

Leona Mae Francis Became Bride of Yeoman Tom Langston Saturday

Saturday night, at 8:30, in the Baptist Church, Leona Mae Francis became the bride of Yeoman Tom W. Langston. Dr. Roy Johnson read the vows. Mrs. C. W. Norman of Big Spring, sister of the groom, played "Venetian Love Song" by Ethelbert Nevin, before the ceremony. She accompanied Miss Marion Miller who sang "Because" and "I Love You Truly," and played the traditional wedding marches. During the ceremony she played "Oh Perfect Love."

The church was decorated with baskets of Easter lillies and snapdragons and candelabra. The bride was attended by her cousin, Mary Lee Davis of White Deer and Mrs. James Wood of Pampa. Lt. Charles E. Francis, brother of the bride was best man. Before the ceremony, Mary Francis Norman lighted the candles.

The bride was given in marriage by her father, R. M. Francis.

The bride wore an aqua blue dress with white and tan accessories, and her corsage was of gardenias. Miss Davis wore pink wool crepe with an iris corsage. Mrs. Wood wore brown with pink accesories and a pink carnation corsage Mrs. Francis, mother of the bride, wore gray with a red rosebud corsage. The bridegroom's mother wore green crepe with red rosebud corsage.

The bride graduated from Grover High School and West Texas State College. She has taught school in Happy and was teaching in Hereford before her marriage. Yeoman Langston graduated from Texico High School, attended West Texas State for three years and took his degree from New Mexico State University, Albuquerque, N. M. He was serving as secretary to Dr. J. A. Hill at the time he joined the Navy. He holds the National speed record in typing for 1941.

DAVIS ROOM MOTHERS GIVE EASTER PARTY AT MONEY'S

Mrs. Cecil Briggs, Mrs. Alton Reeder, Mrs. Eugene Peppard and Mrs. Ed Money gave an Easter party for Mrs. Roscoe Davis' second grade Friday afternoon at the farm home of Mrs. Ed Money.

The children had enjoyed dying and designing the eggs earlier in the week which they took with them for the Easter Egg Hunt. Prizes were given to the ones who found the most and the least number of eggs as well as for the six gold eggs.

Games were played, after which refreshments of sandwiches and bottled drinks were served to the youthful hunters.

Recreation Center Is Greatest Need For the Community

W. W. Nicklaus spoke at the Rotary Club luncheon Tuesday urging that a recreational center be built for the boys and girls of the community. "It is a shame that there is no baseball ground in the whole of Randall county," stated the speaker.

Health and Physical Education was the subject discussed by Coach Nicklaus. Child delinquency has increased as much as 10% in most of the industrial centers of the nation.

High tribute to football and other sports was paid by the coach as he pointed to the development of men in the armed forces. A large per cent of the athletes of Texas schools are now commissioned because they are physically fit, alert and are leaders of men.

Athletics has excluded too large a per cent of the students. A complete physical training program is now being introduced in order to take care of all students.

Coach Nicklaus illustrated the health-building exercises which are given the cadets in the College Training Detachment.

Physical training must start in the grades. Physical defects which are discovered in the children should be corrected rather than allowed to continue.

Men who are returning from the armed forces will expect and demand more of the community. "Canyon offers less to youngsters than any town I know of," stated the coach.

In citizen building, the Church must not be overlooked, stated Mr. Nicklaus.

Visitors were: E. Kancher and Horace Griggs, both of Amarillo.

Capt. and Mrs. F. A. Brewer from Ft. Huachuco, Ariz., and Mr. and Mrs. J. A. Brewer of Childress spent Tuesday night with Mr. and Mrs. Lee Foster and Sally. Miss Marcelle Brewer of Amarillo had dinner with the Brewers and Fosters Tuesday evening.

HOLD THAT TONGUE

Hey, you kids—what's the matter with you? Seriously now, some people in school are just too quick to lose their temper. It seems that any day one can go down to the locker rooms and hear some very hot passes flying through the air. Sometimes the atmosphere isn't too comfortable. Come on, fellow students, let's kinda overlook the faults of the other guy, and hold our tongues when we want to say words that we are certain to be sorry for afterwards.

And another thing, some people seem to delight in wagging over things that they know nothing about. Of course it's fun to be always ahead on the latest "gossip," but sometimes it's a little hard on the other party.

So come on, kids, let's be friends, and remember: "An empty wagon rattles the loudest."

ABUSING YOUR SHOES!

Don't let them go to pieces just for the sake of needed repairs.

Have them re-conditioned now, and prolong their life.

POPE'S SHOE SHOP

In spite of this beautiful spring weather and a touch of spring fever, Cal gathered quite a bit of gossip during the past week and will now tell it to anyone who is interested.

Billy Thurmon claims he ran into a tree on the junior picnic Friday, but we all know he received his skinned face when he ran into a door. Eh, Billy?

A new couple, or a renewed one, is that of Ernest Frank and Rose Hugg. It seems they are on and off—usually on—and seem to enjoy each other's company immensely.

Say, that Billie Turner really gets around now. She went to the annual dance of the Alpha Sigma Xi with George Black, ex-student of this school, Friday night and really had a good time, they say.

Will someone please tell Betty Brown to teach her "Jeep" better manners? That Model T Ford had a flat right out in front of Stroud's store Friday and caused quite a traffic jam. Dear me!

News that is really news is the switch-up in the senior class. I heard that Peggy Head and Lindsey Taylor had a swell time double dating with Ruth Price and J. Ray Hunter Friday night. There's nothing like variety!

Spring fever seems to have hit some of the lower classmen, too. James Meroney and his favorite, Louise Tucek, are at it again, while Max Dutton and Maxine Barnard seem to have a lot in common. Even their names match.

Speer Announces Essay Contest

Contest Participants Gain Better Texas Citizenship

Superintendent J. B. Speer has received an announcement that prizes, totalling approximately $750 in war bonds will be given for the high school essays on "Why Texas Should Observe Its Centennial of Statehood."

This contest will be sponsored by the Daughters of the Republic of Texas, in cooperation with the Texas Centennial of Statehood Commission and the State Department of Education. Prizes in war bonds will be donated by Karl Hoblitzelle of Dallas.

Essays Reflect Studies

Further, the notice stipulates that essays shall be 500 to 1,000 words in length and reflect careful study of Texas history in the period of 1845-1846 when Texas joined the United States. Entries must be submitted to local chapters of the Daughters of the Republic of Texas, or in communities where there are none, to a judge to be selected. First prize for the best essay by a student from a high school with more than 500 students will be a $100 War Bond, with $25 bonds for each of the next eight winners. First prize for schools of 200 to 500 students will be a $75 bond with $25 prizes to each of the next six winners. For smaller schools, first prize will be a $50 War Bond with six more $25 winners.

Dr. L. A. Woods, State Superintendent of Public Instruction, in a letter to Mr. Speer, in part, says: "Participation in the contest is certain to make better citizens of the youth of our public high schools, and in their research they will derive a greater working knowledge of 'a heritage of a Texan,' which is something to inspire us all as we direct our efforts to make of our State a better place in which to live."

Teachers Choose DAR Candidate

Bonifield Is Outstanding Senior Girl for 1943-44

Good Citizen of Canyon High School is Billy Jane Bonifield. She was chosen for this honor through the Daughters of the American Revolution and was appointed as this year's winner by a secret committee of teachers.

Billy Jane was judged on her dependability, leadership, service and patriotism to an outstanding degree. This honor is awarded to the outstanding senior girl in citizenship each year.

This year Billy Jane is president of the Student-Faculty Congress, vice-president of the senior class, area president of the F. H. T., business manager of "The Eagle's Tale," and a new member of Quill and Scroll. Along with her political life she is an outstanding student in all her scholastic activities.

Billie Jane has the opportunity of winning one hundred dollars as the best high school citizen of Texas. Previously, trips to Washington, D. C., have been awarded, but due to wartime conditions, awards will be made in money this year.

Journalists Astonish Students

GRADE NOTES

Mrs. T. W. Collins' first grade participated in an Easter egg hunt Friday, April 7. Each student brought eggs to school and the class dyed them. After the hunt, the room mothers, Mrs. Bill Crow and Mrs. W. M. Dickerson, surprised the children with refreshments of orange soda pop, sandwiches, and cookies in shapes of rabbits and chickens.

Mr. Easter Bunny also made a visit to Mrs. Bob Orton's first grade class. Beginning at 2:15 and calling it a day at 3:00, the children hunted for Easter eggs on the play ground. Tommy LaMarr found the most eggs. Ice cream and candy Easter eggs were served to the students.

Mrs. Stella Murrell's second grade spent three days last week dying 147 eggs for the hunt held Friday afternoon at Mrs. Schramm's. The room mothers, Mrs. R. A. Neblett, Mrs. Vandergriff, and Mrs. Schramm served the children dixie cups after the hunt. Wayne Cope found the most eggs and received the prize goose egg.

Mrs. Goodman's third graders were entertained at M. O. Slack's Friday, April 7. The children were taken in a pick-up to the farm where they had dinner and later hunted Easter eggs. In the late afternoon the children were served cake and ice cream. Room mothers Mrs. M. O. Slack, Mrs. Ed Harrell, and Mrs. Bill Bourn were asked to hunt for their "Easter Eggs" which were two pyrex pie plates each, a gift of the children and Mrs. Goodman.

Mrs. H. P. Doughty's third grade also had an Easter egg hunt on the vacant lot two blocks north of the school house. On their return refreshments of sandwiches, candy Easter eggs, cookies, and milk shakes were served to the pupils by the room mothers, Mrs. W. M. Dickerson, Mrs. R. L. Glenton, Mrs. E. C. Prichard, and Mrs. Gene Root.

Miss Florence McMurry's fourth grade presented an Easter program to the intermediate grade school Thursday, April 6, entitled "The True Meaning of Easter." Bobby Ray Ratliff acted as master of ceremonies for the program. "The Rainbow" was given by seven girls each representing a color of the rainbow. "The Crowns" were presented by six fourth grade boys in which a large white cross was decked with evergreen wreaths. Louise Walker recited "The Angel I Admire." To conclude the program, candle bearers quoted scriptures from the Bible and sang "Jesus Bids Us Shine" and "He Lives on High." Soda pop and cookies were served by the fourth grade students to twenty-five parents who attended the program.

Turpentine is derived from pine and other resinous woods.

"Really, aren't they going just a little too far? I didn't know there was anyone in school THAT hard up for clothes!"

Such were the comments of various students and teachers as they gazed on the appalling sights that were once known as Billy Jane Bonifield, Ellen Root, Evelyn Black, Ruth Price, and Margaret Lair. These unfortunate students were being initiated into Quill and Scroll, International Honor Society for High School Journalists.

Artists Perform

Margaret Lair, who would have passed for a villain in a melodrama of long ago, proved her ability as an artist and a singer by drawing a picture of Mrs. D. F. Sanders and singing "School Days" for the Spanish class.

Dressed in a stunning evening dress with "long handles" showing, a gun buckled about her dainty waist, and a red bandana covering the lower half of her face, Ellen Root astounded Mrs. A. K. Knott's geometry class by reading and explaining an exciting episode from a funny book.

With a peg-leg doll and a baby rattle to insure moral support, Billy Jane Bonifield showed off her pigtails and excellent baby talk by singing "Rock-a-bye Baby" for the entire study hall.

Meanwhile, Ruth Price, in ragged and dirty overalls, somewhat large shoes, and minus make-up, expounded a theory on the ostrich from an ancient encyclopedia.

Pledges Kneel

In contrast to Ruth's raggedness, Evelyn Black was unrecognizable because of the excess of make-up covering her face. Even the make-up couldn't cover her blushes as she stood before the geometry class in shorts and proved her mathematical ability by adding a column of figures that left even Mrs. Knott in a daze.

However, that wasn't all. To complete her humiliation, each of the pledges was required to kneel to each of her superiors, and to obey to the letter the orders of their "majesties."

If they did a little griping, do you blame them?

FHT Girls Model Class Projects

During the past few weeks the third year homemaking class has been making dresses.

Special occasion dresses were made by the majority of the class, while slack suits and two-piece dresses were the projects of the minority.

On Thursday morning the girls modeled their garments before the class. They were criticized by each other on their selections according to their personality, coloring, etc., bringing out both good and bad points.

Picnics Entertain Upper Classmen

Parties and picnics seem to be the fad these days, or at least the upper classmen think so.

Thursday, the biology and chemistry classes joined forces for a three hour field trip and a hike. They journeyed by bus to the home of G. W. Cox where they tried in vain to capture wild bugs, fish, butterflies, etc.

Hiking out to the north creek Friday, the Bookkeeping Class, sponsored by Miss Crabtree, really made an afternoon of it. The members of the class spread a picnic lunch and tried the creek for wading.

Party Honors Sanders

Mrs. Dan Sanders was honored by a surprise birthday party given by the American History Class. Chocolate cake, dixie cups, and donuts were served, and the class presented Mrs. Sanders a piece of pottery. The Spanish Class, also celebrated her birthday. They were served dixie cups and angel food cake, furnished by Mrs. T. G. Lair.

Resounding echoes issued from the Six-Mile Crossing, Friday afternoon as the juniors, sponsored by Mrs. Dan Sanders, hiked, played games and spread a picnic lunch.

Dignified seniors lost some of their dignity Tuesday as they ran, walked, crawled, hiked and even rode horse back in the Palo Duro Canyons. Miss Crabtree was elected by the class to assist Mr. Sanderson and accompany them on their excursion. After eating their supper in the Canyon, the class returned to Canyon to attend a movie as a treat from Mr. Sanderson.

Lieut. Allen Visits History Classes

Last Thursday, Lieut. Roach V. Allen, ex-social studies teacher in Canyon Grade School, talked to the second period American History class on some of the work that he is now doing.

Not long ago, Lieut. Allen was transferred from the Chemical Warfare Division to a Duck Company of the Transportation Corps. He now instructs students (mostly Negroes) in navigation and electrical engineering, as well as other technical aspects of the transportation division. He said that the Negroes that he taught were more educated and of a higher class than the Southern Negroes.

In speaking of "Ducks" and "Quacks" we weren't talking about fowls and what they say, but about amphibious trucks (ducks) and amphibious jeeps (quacks).

Lieut. and Mrs. Allen (nee Miss Claryce Whitten, ex-teacher in Canyon High School), have really "learned the ropes" of traveling, or so they say.

At the end of his leave, Lieut. Allen will go back to Florida, and then will go out on maneuvers of some sort.

Inferiors Reveal Hidden Talent

Strange Attire Attracts Spectators of Initiation

For the purpose of allowing the student body as a whole to witness a small part of the informal initiation of the Quill and Scroll pledges, students assembled in the auditorium Friday at 12:30.

Mollie Nann Ziegler, alias Mrs. Umbletonhouse, introduced her five talented? young? children, Billie Jane Bonifield, Margaret Lair, Evelylyn Black, Ruth Price, and Ellen Root, explaining that each was an expert in her particular field.

After Billie Jane excuted, or murdered, just as you like, a tap dance to Ellen Sanders' accompaniment of "Daisy," Ellen sang that all-time hit "Clementine."

"Because my children, Ruth and Evelyn, are always hungry, I think I shall let them feed each other a bowlful of their favorite food, Post Toasties," stated Mrs. Umpletonhouse. The catch to this was that the girls were blindfolded. They tried administering the "poison" with spoons for awhile but finally had to give up and proceed with their hands. Margaret gave a speech on an interesting subject, politics.

To end the torture of these pledges the "fair damsels" sang "Happy Birthday" to Mrs. Dan Sanders.

Farmers Attend Livestock Show

Second year boys of the Canyon High School F. F. A. journeyed to Plainview yesterday to see the Plainview Dairy Show. The judging seen by the boys was the placing of Jersey, Holstein, Guernsey, and Shorthorn cows.

This year's show is the largest ever held in Plainview. Having started Monday it will continue through tomorrow.

At eight o'clock yesterday morning the boys left in Mr. Sanderson's car and arrived home approximately at seven. The boys arrived in Plainview too late to see the placing of the bulls.

Speaking of an early spring—maybe we ought to have an excess prophet tax.

"Ever Since Eve" To Be Given By Senior Class of W. T. High, April 13

Edna Mae Mauldin, Senior Speech Student, Is The Director

April thriteenth at 8:15 o'clock in the Demonstration School auditorium the senior class of W. T. High School will present the play "Ever Since Eve," a three-act comedy.

This is a play of the trials and tribulations of Johnny Clover (Don Service) and his best friend Spud Erwin (Herschel Lowe). Johnny is the editor of his school paper and Spud is the business manager. Everything is going along smoothly until Susan Blake (Jane Campbell) is elected girls' editor and Betsy Erwin (Betty Ruth Cox) her assistant. Lucybelle Lee (Deanne Hardin), who is scatterbrained and pretty and has that certain something that will always attract the men, presents more complications. Preston Hughes (Willard Spiser) also adds difficulties.

Mrs. Clover, (Joyce Carr) a young and understanding mother, stands quietly by and watches with amusement the proceedings of her family. Mr. Clover, (Malcolm Reynolds) the absentminded and kind-hearted father of Johnny, always manages to become involved in practically every situation concerning his young son.

"Cappy," (Karl Meyers) the policeman of the block and ex-traffic officer, is always trying to remember the importance of his position.

Susan, always with the very best of intentions, succeeds in involving Johnny, Spud, and herself in many complications, which she finds pretty difficult to wiggle out of. Betsy is the pretty busy body sister of Spud. She makes herself a part of each and every situation, and innocently helps Susan involve them in trouble.

Heart troubles fall in the wake of Miss Willard (Virtis Lowe), the young journalism teacher and Mr. Quinn (Carl Michell), the principal.

Miss Edna Mae Mauldin, a senior in the Speech department, is directing the play. The tickets are 25 cents.

Janitors School Is Scheduled June 5

This week the Bureau of Public Service is mailing 150 letters to superintendents, school board presidents and school principals, telling of the Janitors School which will be held at West Texas State College from June 5 through June 10, as a service feature. This school is a co-operative project between the local college and Texas A. and M.

Arrangements for the week of intensified training in janitorial work were made by Business Manager, Virgil Henson. The school will be similar to that which has been held several times in Amarillo. It will be a workshop course, with teaching by doing.

It has been pointed out that the janitor is an important person in any school, for upon his work depends much of the comfort and health of both pupils and teachers. It is expected that a large number of schools will sends their custodial staffs for the schools.

In addition to the work sessions, an entertainment schedule will be prepared for the visitors.

Baptist S. S. Recognized as Standard

Virgil Henson, superintendent of the Sunday School at First Baptist Church in Canyon, reports that the school has been recognized as STANDARD by the Sunday School Board of the Southern Baptist Convention. This is the fourth consecutive year for the local school to reach this rating, which is attained by only about eight hundred of the twenty - three thousand Sunday Schools among Southern Baptists. The local school is operated under eight separate departments, each with its departmental superintendent and corps of officers and teachers. To be Standard, the school must meet certain requirements in enrollment, curriculum, church relationship, equipment, evangelism, and teacher-training.

Long To Preach At Baptist Church Next Week

DR. H. R. LONG

Dr. H. R. Long of Dallas will be the preacher in special services at the First Baptist Church in Canyon the first half of next week, April 17-19, at 8:15 each night. Preceding each service the Sunday School will meet by departments for special study of "The New Birth" on Monday; "Repentance and Faith" on Tuesday; and "Proof of Salvation" on Wednesday. The public is invited to all these services.

Dr. Long was once pastor at Ralls, Texas, from which place he went to Denison and later to Sulphur Springs. He is a long-time friend of the pastor in Canyon, Dr. Roy L. Johnson, who will introduce the four-day special services with messages at 11:00 and 8:15 on Sunday.

I can TASTE it ain't real

IT'S NEWS, said a famous editor, when boy bites dog but commonplace when dog bites boy.

It is not quite clear why our young inquiring reporter had to sink his teeth into the subject to discover that it isn't the genuine article. But many a motorist would like some similar way of quickly discovering the real thing when he wants high quality motor oil.

The difficulty is that he can't detect quality in a lubricant by taste, smell, sight, or feel. Yet there is an easy solution to the problem. Just remember that to end confusion and doubt, Phillips makes this simple, straightforward statement: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality . . . the highest grade and greatest value . . . among all the oils we offer to average motorists.

The recommended oil change period used to be every 1,000 miles. With today's reduced driving, experts say motor life is lengthened by changing oil every two months. And now is the time for seasonal change to replace winter-worn lubricant. So be sure to get quality by asking for Phillips 66 Motor Oil.

Jarrett Attends Educators Meet Held in Austin

Dean R. P. Jarrett was in Austin last week attending a Workshop which was sponsored by the Texas Interprofessional Commission on Child Development and the Texas State Department of Health. Only a limited number of educators from Teacher-Training Institutions were invited to participate in the five day meeting which was made up of carefully planned study sessions followed by visits to many of the Austin Schools.

Dean Jarrett, who was an Inter-Professional Commission Consultant, took part in the discussions on Biological and Medical Findings in Child Development, Efforts of Classroom Environment on Child Development, Teaching Problems in Child Development, Teacher-Training Problems in Child Development.

All the discussions were based upon data, findings and reports of a study of the development status of Texas elemenetary school children.

Dr. D. B. Harmon was in general charge of the Workshop. He will conduct a similar Workshop on the campus of West Texas State this summer as a special feature of the first term of the summer session.

Postal service in the United States dates from 1639, when such a service was first instituted in Massachusetts.

That morning rush would be solved if folks realized coffee cooks quicker if put on ten minutes earlier.

Most girls would rather be pretty than brainy because they know that a man sees better than he thinks.

Dean R. P. Jarrett Talked to Lions Luncheon Tuesday

Dr. R. P. Jarrett, Dean of the College, spoke to the Lions Club Tuesday on "The Importance of Little Things." He used several illustrations from the thinking of men in service and one from the term paper of a college student. He stressed the fact that it is the little things that are of most importance in the lives of most Americans.

Lion Bob Black sponsored E. P. Faulkner, new manager of the M. E. Moses store as a new member of the club.

This qualified Lion Black as a key member of Lions International.

Lion Yeoman Tom Langston, U. S. N. was a guest of Mitchell Jones. Lion Langston is stationed at New Orleans.
